Integrating eighty-five readings - thirteen of them new to this edition - numerous cases, and abundant pedagogical tools, the book addresses the most provocative and controversial topics in bioethics. Updated throughout, the second edition incorporates new information on justice, health care, and health insurance reform along with more coverage of issues related to race and culture and of the moral challenges facing nurses and other health care professionals.

Our goal in this paper is two-fold. First, we aim to clarify two ways in which contemporary Christian bioethicists have erred, on Engelhardt's account, in their attempts to do bioethics within a distinctively non-Christian idiom, namely, either (1) by rejecting a principal metaethical thesis or (2) by misrepresenting a principal moral-epistemological thesis of natural-law ethics, properly ...
