Plants with more than one rooted crown may be divided and the crowns planted separately. If the stems are not joined, gently pull the plants apart. If the crowns are united by horizontal stems, cut the stems and roots with a sharp knife to minimize injury. Divisions of some outdoor plants should be dusted with a fungicide before they are replanted.

[Tree Coupon Program - City of Tacoma](#)

The majority of our pruning and cutting occurs during planned maintenance. In maintained or landscape settings, our policy is to dispose of any small limbs and brush. The larger pieces of wood are cut, but not necessarily in firewood lengths. In non-landscaped sites, pruned vegetation and wood are left in place to biodegrade.
